

Hi!

It's easier to be productive when you have the right tools for the job. On 10 May 2022, we're releasing improvements for the Overview and Doctrin Network. We hope they will help you in your daily work.

All the best,
Doctrin Team

News

The screenshot shows the Doctrin Overview interface. On the left is a dark sidebar with a navigation menu. The top of the sidebar has 'DOCTRIN TEAM' with a dropdown arrow. Below it are sections for 'Doctrin Team Coordinator', '1 ongoing' (with a sub-item 'Joseph Schulist' and 'Cancellation or rebooking'), '0 consultations', 'Doctrin Team Dermatologist' (with '1' and a speech bubble icon), 'Doctrin Team District nurse', 'Doctrin Team Doctor', and 'Doctrin Team Midwife'. The main content area has a top navigation bar with 'Overview' (selected), 'Meeting rooms', and 'Control tower'. Below this is a 'Filter cases' input field and a 'Show paused cases' checkbox, which is checked and highlighted with an orange border. The main content area is divided into two sections: 'WAITING ROOM' and 'MY CASES'. The 'WAITING ROOM' section lists: '0 New cases', '0 New consultations', '0 Cases requiring handover', '0 New consultations - from other units', and '0 New cases - from other units'. The 'MY CASES' section has a sub-header '1 My current cases' and a table with the following data:

Name	Age	Reason for contact	Priority	Registered with	
Joseph Schulist	11 years	Cancellation or rebooking		Information missing	A C

Show/hide paused cases for lists in the Overview

We now make it possible to show/hide paused cases for the lists in the Overview. Previously you could filter based on text - now you can show/hide paused cases by using a checkbox.

When you log in after the update, "Show paused cases" will be active. **This means that the Overview will look exactly the same as before.** If you choose to uncheck "Show paused cases", paused cases will be hidden from all lists in the Overview. The browser will save your last choice until the next time you log in with the same browser.

[Doctrin Network] New icon shows case status during a handover

Icons allow you to follow the status of a case during a handover with Doctrin Network. A new white arrow icon shows when a case has been handed over and is waiting for a patient's consent. When a patient has consented, the icon changes colour to purple and the case is waiting for the receiving unit to accept the handover.

For a handover within a unit, the arrow icon is always purple as consent from a patient is not required. The case will immediately be waiting for a colleague to accept the handover.

Improvements

Feedback from you working in the platform

We are grateful for all the feedback we receive. It allows us to add functionality such as showing/hiding paused cases in the Overview lists. The next step is to review the activity panel (highlighted in the image) - do you have ideas on how it could be improved to meet your needs?

[Add your ideas in our support portal, in the category "improvements"](#)

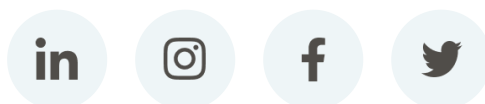

Find everything about the Doctrin platform in the [Help Centre](#).

This email and the Help Centre is confidential - do not share outside your organisation.
